## Letter of Recommendation

As the Head of Department of Computer Engineering branch, it is my pleasure to recommend Mr. Malani Chaitanya to your prestigious institute for pursuing his Master's degree in Computer Science. He had successfully completed his Bachelor's degree in Computer Engineering in May 2022 with an excellent CGPI of 8.63. He has consistently been amongst the top performers of his batch, throughout the course of his degree. I had taught him Natural Language Processing in Semester 8 of his final year and found him to be punctual, attentive and an enthusiastic learner with very strong analytical and problem-solving skills.

He displayed a special passion in designing and developing cloud-based web applications using Python, Node.js, JavaScript and HTML. His expertise was clearly demonstrated during the Practical Lab sessions through his coding skills which was par excellence. He had displayed very good leadership, teamwork & presentation skills during his final year capstone project 'Face Mask Detection', developed using ML and Python libraries such as TensorFlow and Keras.

He used to consistently make meaningful contributions during classroom discussions through his intriguing questions and thoughtful points of observation. He was very inquisitive and would make an extra endeavour to learn beyond the course curriculum through online programs from the prestigious IIT institutes and Harvard University and then sharing the learning experience with his classmates.

Based on his excellent academic credentials and my personal knowledge about him, I feel very confident that Mr. Malani Chaitanya will prove to be a very meritorious student and will excel in his Master's degree. Therefore, I wholeheartedly endorse Mr. Malani Chaitanya for admission to the MSc in Computer Science program at your prestigious institute. I extend my best wishes to him for a great future ahead.

Sincerely,
